	Examiner Trang U. Tran	Art Unit 2614	

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 28 July 2005 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☐ The period for reply expires _____ months from the mailing date of the final rejection.
- b) ☒ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.
- Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☐ The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

- (c) ☐ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
- (d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____. (See 37 CFR 1.116 and 41.33(a)).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed July 28, 2005 have been fully considered but they are not persuasive.

In re pages 4-7, applicant argues, with respect to claims 1 and 6, that the conversion of the received input data to a uniform format by the format converter is not related to the conversion of the OSD signals to a corresponding uniform format by the OSD processor, and the cited teaching of Han regarding the interlacer and the format converter fails to teach or suggest the claimed OSD generator and the portion of Han cited in the response to arguments does not add anything to the previously discussed teachings of Han and fails to teach or suggest a means for generating OSD that comprises "...conversion matrices for converting the color information in the color palette to provide the OSD signal, which is formatted in accordance with a selected one of the first and second color format, in formatted in accordance of the first or second video signal source".

In response, the examiner respectfully disagrees. OSD data can be defined as On Screen Display data. The received DTV or NTSC/VGA video data of Han is OSD data because they can be displayed on screen and the OSD processor 5 is used to process them. Thus, as discussed in the last Office Action, the format converter 4 of Han anticipated the claimed OSD generator.

In re page 7, applicant argues, with respect to claim 3, that Susumu Imai fails to cure the effect of Han and Fujimoto as applied to claim 1 discussed above.

In response, as discussed above with respect to claim 1, the proposed combination of Han and Fujimoto discloses all the claimed limitation of claims 1 and 6.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Trang U. Tran whose telephone number is (571) 272-7358. The examiner can normally be reached on 8:00 AM - 5:30 PM, Monday to Friday.
